Pull req branch by lautarose

lautarose / testingPullRequest

Code Issues Pull requests Actions Projects Wiki Security Insights Settings

Pull req branch #1

lautarose wants to merge 2 commits into `main` from `pullReqBranch`

Conversation 0 Commits 2 Checks 0 Files changed 1

lautarose commented now

No description provided.

lautarose added 2 commits 3 minutes ago

- adding file 28e462d
- adding file 3d5d789

Add more commits by pushing to the `pullReqBranch` branch on `lautarose/testingPullRequest`.

Require approval from specific reviewers before merging

Branch protection rules ensure specific people approve pull requests before they're merged.

Continuous integration has not been set up

GitHub Actions and several other apps can be used to automatically catch bugs and enforce style.

This branch has no conflicts with the base branch

Merging can be performed automatically.

Merge pull request or view command line instructions.
